Course: Comp.4630—Mobile App Development I—Fall 2020

Assignment Number: 3

Assignment Title: write your first app

Assignment due: Tuesday, 2020-09-27, 11:59pm

Submit file name: 3_firstApp

Name: Erdun E

E-mail: Erdun_E@student.uml.edu

Web Address: https://github.com/ErdunE/4630f2020/tree/master/3_firstApp

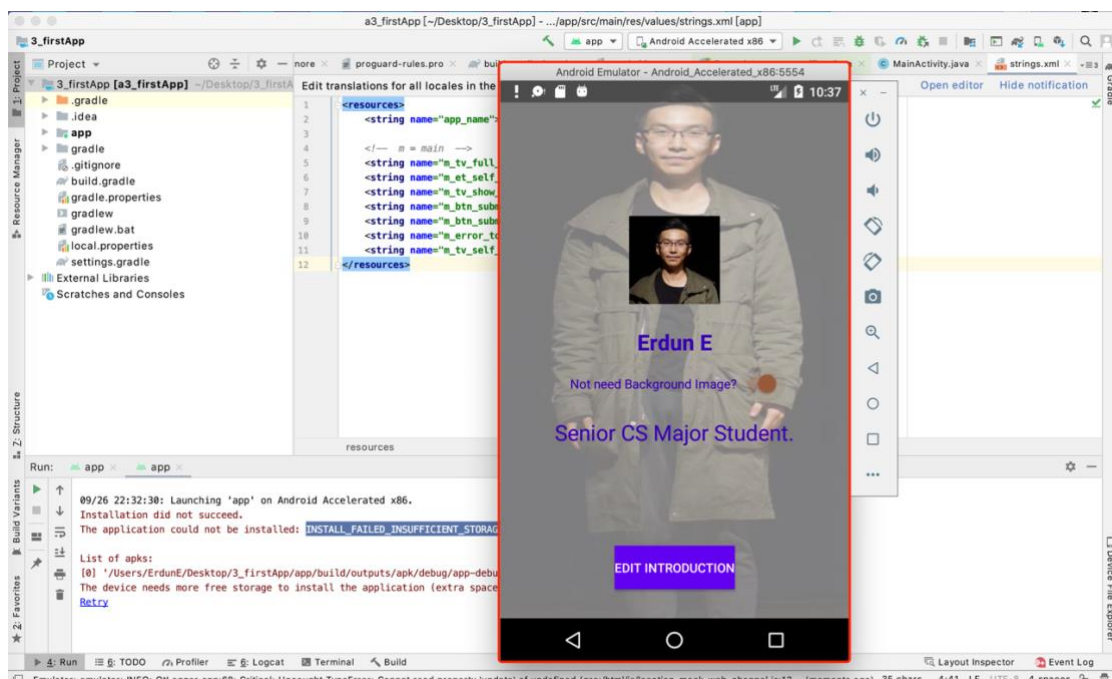

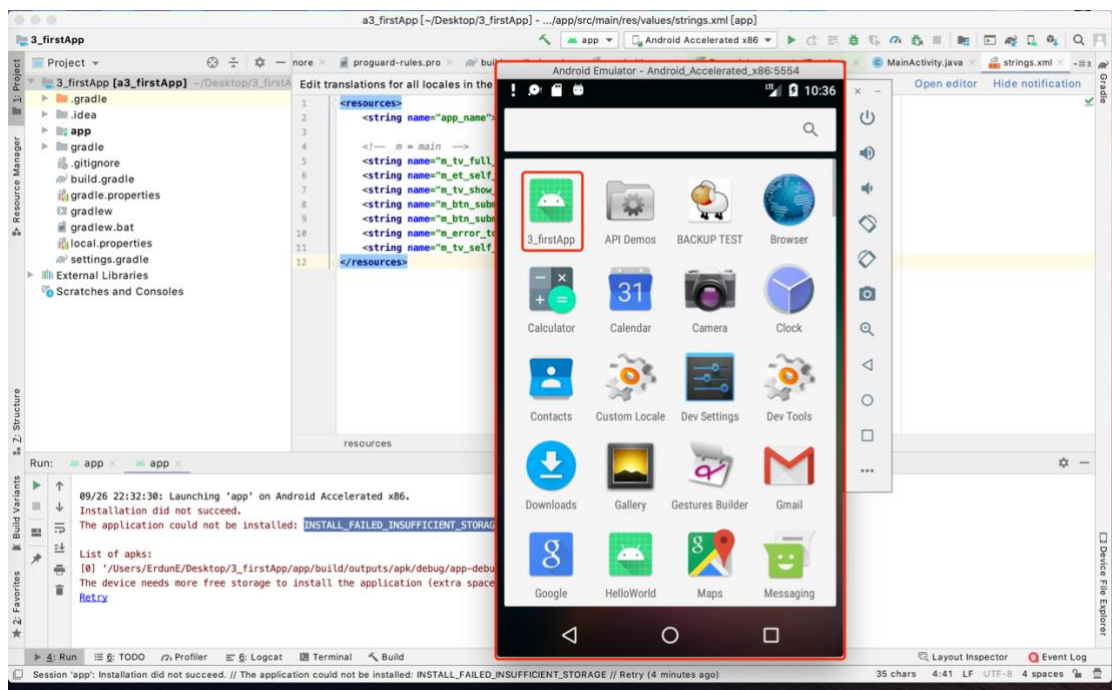

Personal Web Address: <https://erdune.github.io/ErdunE/>

Description: This is my first app assignment and this is my first app. I inserted my selfie as the background and added a button to hide the background. I've also made it transparent. Overall I think I've done more than 95% of this assignment.

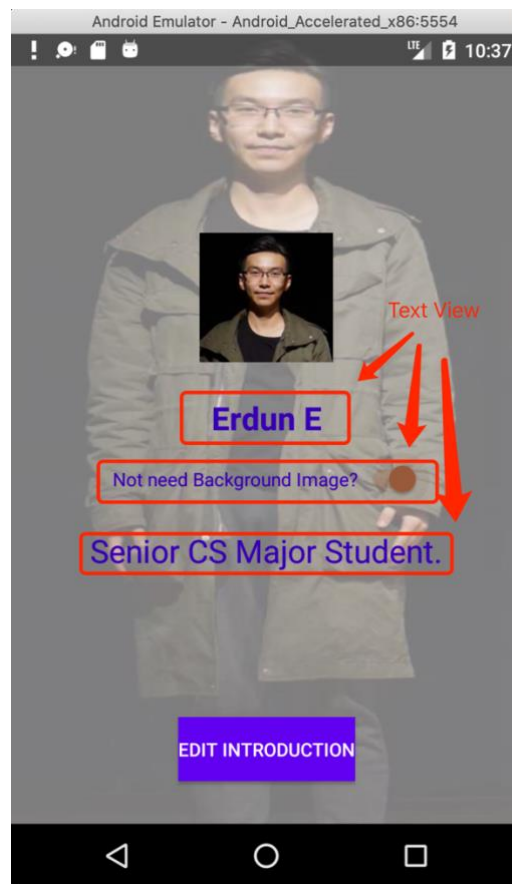

Date: 09/26/2020

Assignment Grading:

1. Compile and run; if it does not, it gets 0;

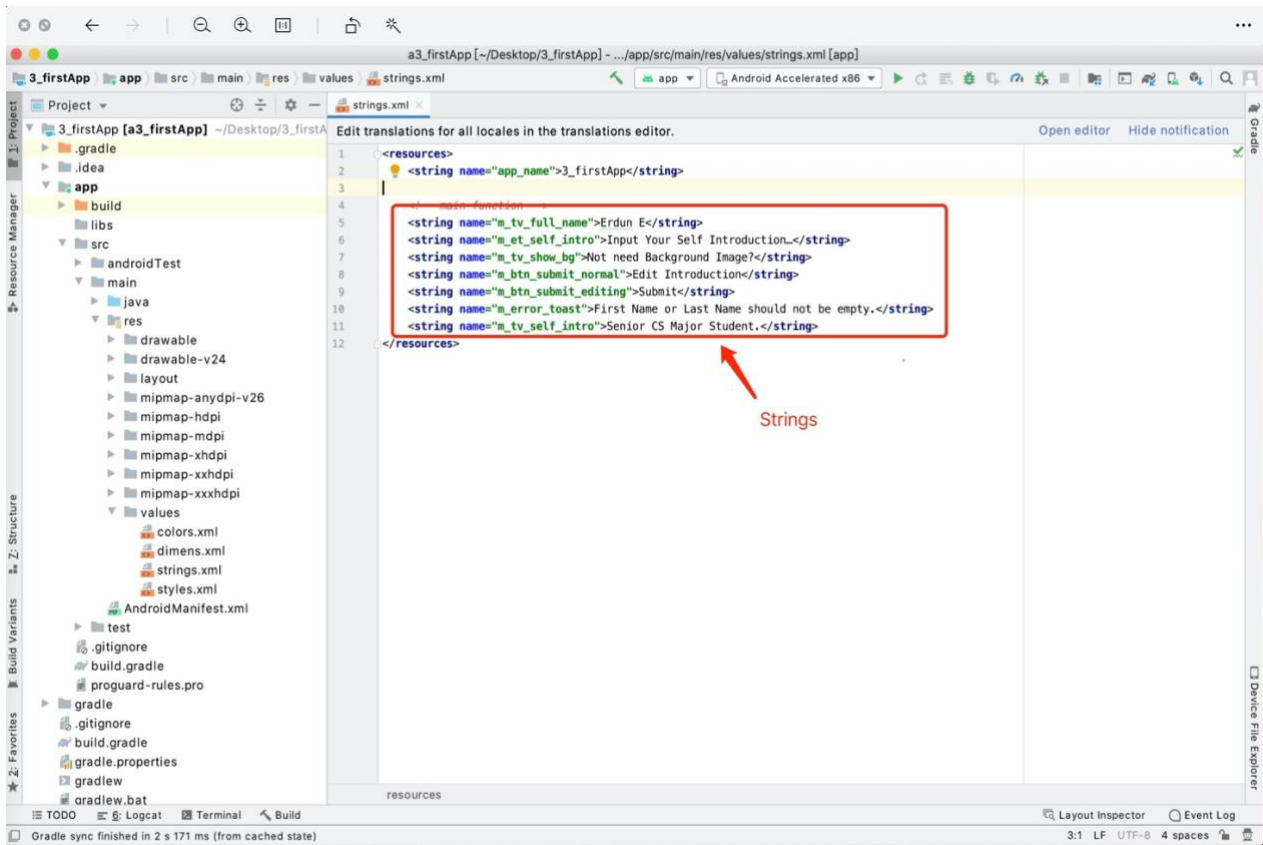

2. Have at least one text view: put your name in it (not in the title);

3. Have at least one image view: place your selfie as the background;

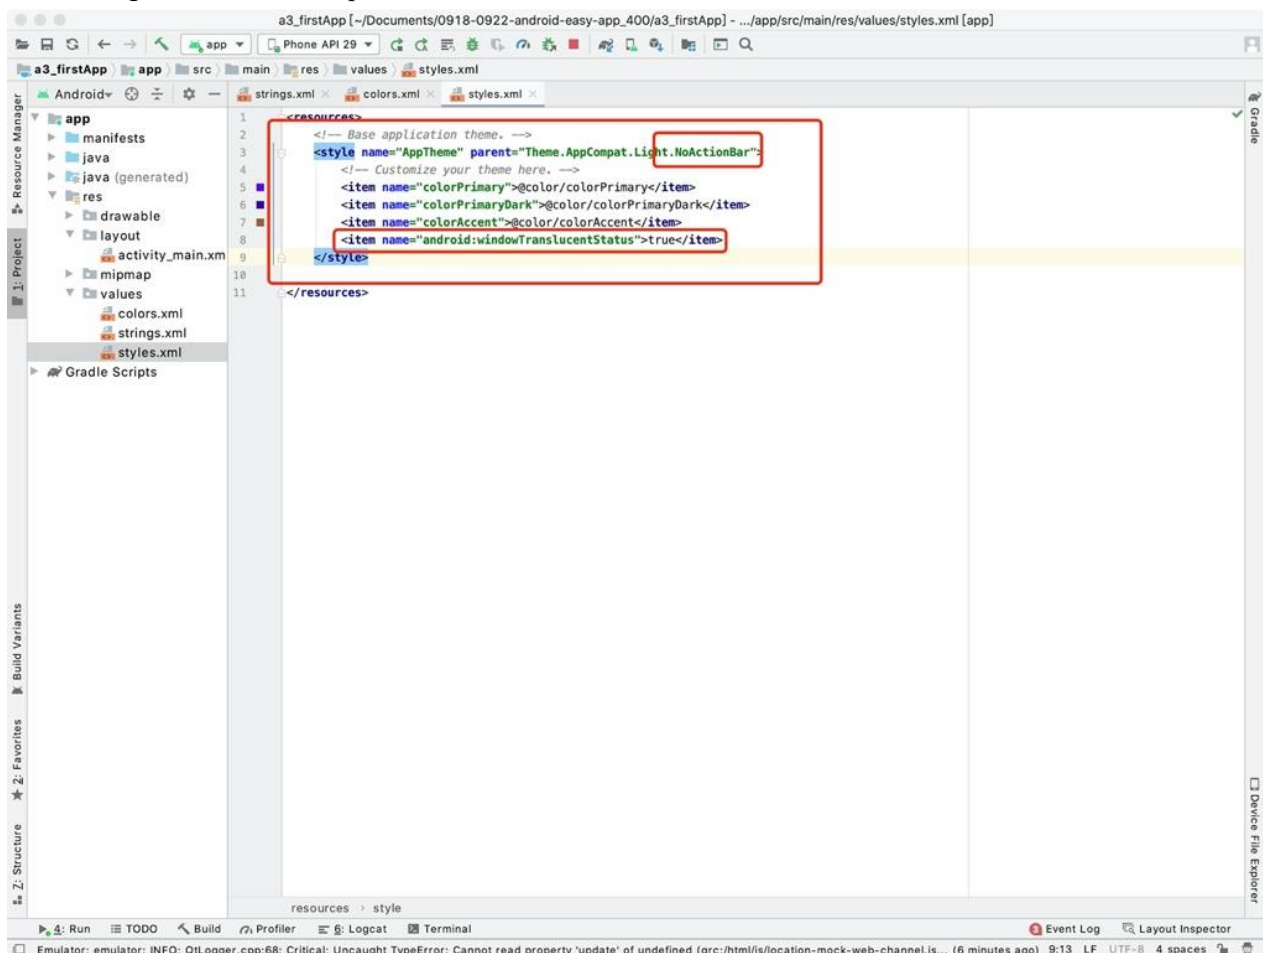

4. Have at least two strings in the layout file changed to values, then referred to in the layout file using @ (Review the string resource page.);

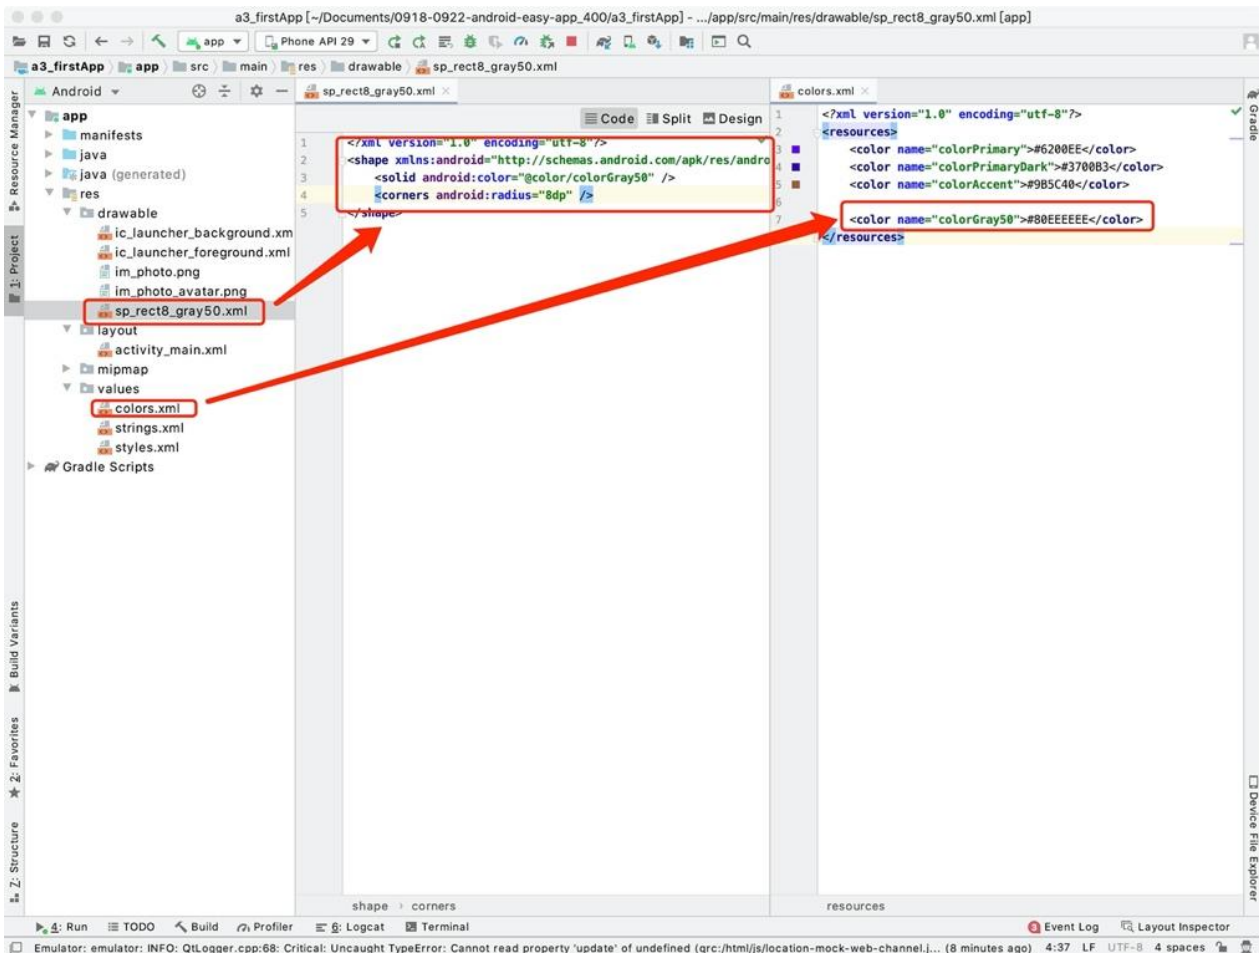

5. Impress me: Do something else: examples include (but are not limited to) working with attributes (e.g., color, text style, size), different layouts, and much more.

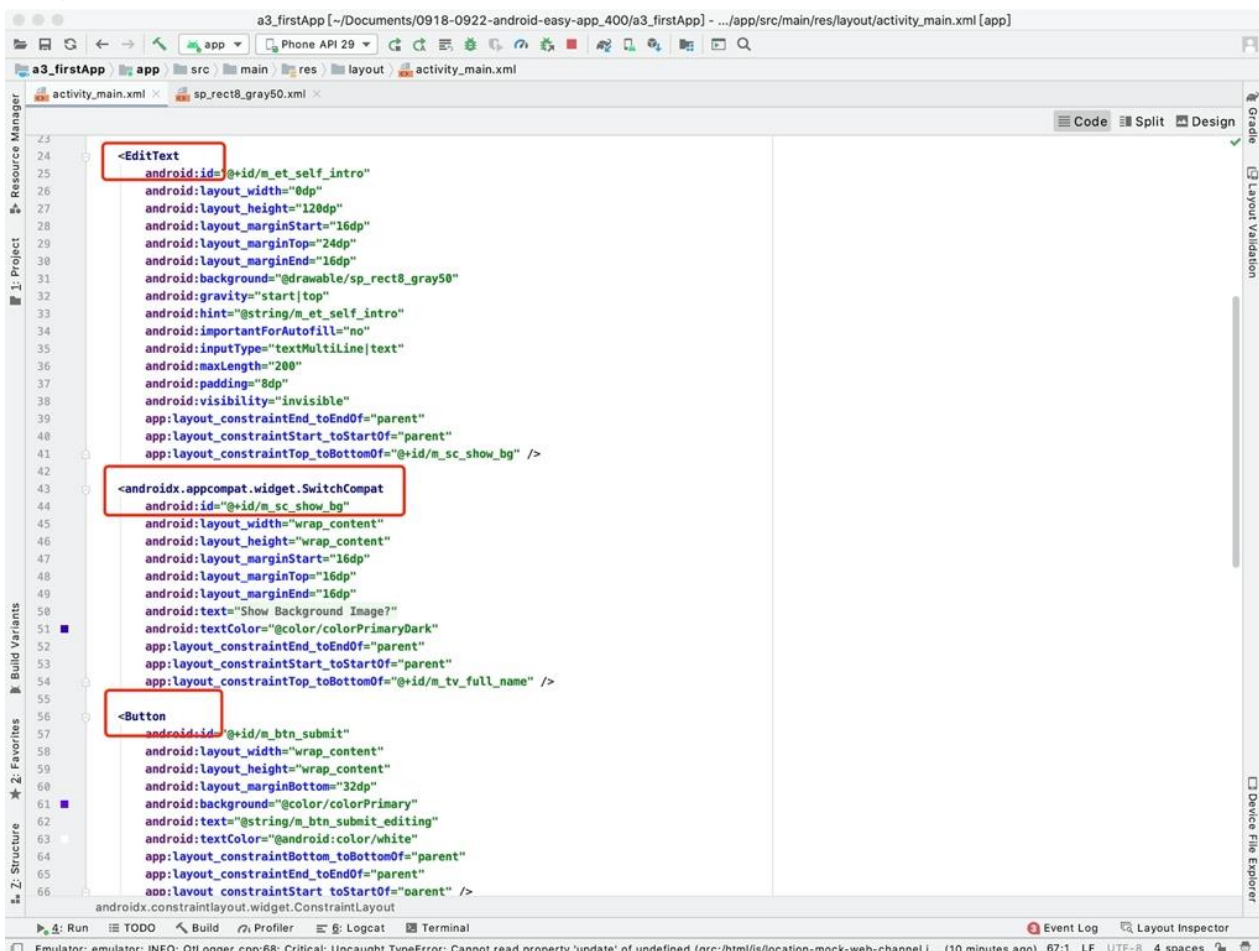

(1) Remove navigation bar and transparent status bar

(2) Drawable and translucent colors for rounded backgrounds in EditText

(3) extra layout EditText, Switch, Button

(4) size
